Education

2007–2013 **Computer Engineering**, University of A Coruña, Galicia, Spain.

Experience

Professional

2018–Present **Product Owner**, Zara.com (Inditex), A Coruña, Galicia, Spain.

Product Owner in logistics department of Zara.com, responsible of the Ecommerce warehouse management system. It includes tracking and monitoring orders, shipping, receiving, picking of goods and numerous related procedures. Main tasks:

- Management and improvement of a product with global impact. Definition of its guidelines to make it the best solution available for the users.
- Deal with the different logistics operations teams, listening to their needs or points of view and transforming them into the best solutions.
- Work under agile methodologies with non-hierarchical collaborative teams. Team with high level of autonomy and responsibility.
- Create solutions that constantly improve the product, making it easier and more efficient for the users every day.
- Describe new projects in requirements/user stories, analyze the solution and collaborate with each of the stakeholders involved to ensure the success of the proposals.

2016–2018 **Service Manager**, Jeppesen Systems AB (A Boeing Company), Göteborg, Sweden.

Part of the Customer Solutions and Support department, working closely together with the stakeholders and management team across the organization in an agile environment. Spending a significant part of my time in the following areas:

- Application management and advanced technical support for our operational products, in relation to the service level agreement(s).
- Assistance to the clients with knowledge injections, proactive problem solving and daily management of the production installation.
- Assistance for Product Management in interaction with customers to understand their challenges and needs, assuring the software features to be developed are relevant and will produce customer value.
- Undertake short term consultancy projects involving data analysis, processing and delivery of results, reports and recommendations.
- Assist with pre-sales/marketing and proposal work in areas of specific product knowledge.
- Participate in a 24x7 standby roster.
- Service Account Manager role for one of the customers.
- Train colleagues and users in several areas of expertise.

2014–2016 **Computer Engineer**, *Gridcore AB*, Göteborg, Sweden.

Part of the development team, in charge of the design of different tools and programs in different programming languages for different environments. Working with multinational customers in the High Performance Computing industry.

Main tasks:

- Design, code and debug applications in various software languages.
- Integrate software with existing systems.
- Collaborate with external and internal users to determine requirements and needs.
- Provide ongoing application support and troubleshooting.
- Investigate and test different tools to determine advantages and disadvantages.

2013–2014 **Software Developer**, *Gridcore AB*, Göteborg, Sweden.

Once the thesis was finished, internship in the company for several months.

2013 **Thesis worker**, *Gridcore AB*, Göteborg, Sweden.

Certificates

2020 **Fundamentals of Digital Marketing**, Google.

2019 **Microsoft Azure Fundamentals**, *M-AZ-900T01*, Global Knowledge.

Other

2008–2013 **Water Sports Instructor**, *Several companies*, Galicia, Spain.

Sailing, windsurfing, wakeboard and water-ski instructor for kids and adults in a multicultural environment.
